Re: FY 2014-2015 Recommendations

The following details were provided from the 2014 SFRB Committee:

- CAPs should include a line-item for food in their *FY2015-2016* application for student steering committee
- Develop a steering committee similar to PNMGC's
- Trains their employees so they know graduate students taking undergraduate courses can use their services
- The administration look into a matched I&G funding increase to CAPS

Thank you.
